TEN CENTS A WEEK

BRYAN TIDAL WAVE

Great Demonstration In the Convention Hall.

STARTED BY SEN. GORE

Senator in a Speech Unleashed Enthusiasm of Delegates and Such Scene Has Rarely Been Witnessed at a Convention

Denver, Colo., July 10.—Caused by Senator Gore, of Oklahoma, a tidal wave of enthusiasm roiled the convention for one hour and forty-seven minutes Wednesday and merged everything in its path except the standard of the Georgia delegation. That anti-Bryan standard planted and it stood, the following from Senator Gore provoked the outburst:

The president of the United States said that his opinion of our convention is unfair for publication. It is true of many of the opinions he president of the United States. Fellow democrats, the great secret of war came to Oklahoma and against our legislation," said Senator Gore. "He asked to give up our right of liberty and government, but by a vote of thousands upon thousands we rejected the idea of Taft and accepted the idea of Bryan."

Men Leaped to Chairs. The mention of the name brought convention to its feet in the first Bryan demonstration. Delegates in nearly every state jumped to their chairs and yelled. Many members of the New York delegation joined in the cheering, but a majority remained in their seats. Minnesota and Delaware were the conspicuous exceptions to the general celebration. Bryan banner, which had been lurking in the rear of the hall, was rushed to the stage and waved above the heads of the chairman and speaker. A point of the flagstaff caught one of the suspended eagles over the chairman's desk and brought it crashing down to the floor. It was quickly picked up, however, and held above Senator Gore's head.

And Played as Delegation Cheered. The band joined in the demonstration with lively music.

The applause was relaxing somewhat, the band poured oil on the fire striking up "Dixie." Senator Gore, who had caused the terrific outburst, waited for a time for the noise to cease, and then quietly turned and set himself against the railing of the platform, waiting for the uproar to subside.

After ten minutes of yelling the perking, scrambling delegates with their state standards, left the platform and started on a parade around the hall. Back and forth in the aisle, excited, shouting Bryan men carried their standards, but the cheers were by this time beginning to decrease in volume.

The chief interest in the day centered around the action of the credentials committee in declaring against James M. Guffey, of Pennsylvania, and the vigorous preparations made that skilled and veteran political warrior to organize his forces for a battle in the convention which he was determined to carry to the uttermost.

On account of delay in the report of the credentials committee a night session was held Wednesday.

The Night Session.

At the night session the galleries were well filled long before the first delegates and alternates began to take their appearance. The cowboy, unfatigued by its strenuous afternoon work, entertained the assembled delegates and spectators with a long program of popular selections. Under the glow of thousands of electric bulbs the convention hall proved to best advantage.

The convention officials after a short conference, decided that no work could be undertaken by the convention except to consider the report of the credentials committee. Debate on the majority and minority reports was agreed, should be limited to ten minutes on each side. The report of the committee on permanent

WILLIAM JENNINGS BRYAN IS CHOICE OF DEMOCRACY

Denver, Colo., July 10.—Amid scenes most remarkable, at 3 o'clock this morning William Jennings Bryan of Nebraska was nominated as the Democratic candidate for President by acclamation. Early in the night it was very clear that "The Peerless" had more than the necessary two-thirds vote. Johnson men from Minnesota and Gray men from Delaware, however, insisted on placing their favorite sons in nomination, but Johnson received only 46 votes and Gray 59½ votes. Bryan received 882½ votes, but before the result could be announced his nomination was made unanimous.

Georgia, Pennsylvania and New York had been wavering all through the day, but when night came they hastily climbed in the band wagon and were seemingly as enthusiastic as the delegates from Oklahoma and Nebraska. The demonstration was

similar to the scenes that marked the convention on Wednesday afternoon. It was the largest compliment ever paid an American by a National convention, and the fact was clearly demonstrated that the Democratic party was better united than it has been since the Civil War.

New York Settled It.

When for a moment order could be secured out of the tempestuous chaos of demonstration, State after State, which had at first recorded its vote for Johnson or Gray, fell into line with the over-mastering column, and the nomination was made unanimous, and by acclamation.

When New York was reached in the call of States, the announcement of Murphy, "seventy-eight votes for Bryan," brought out a wild outburst of enthusiastic approval, which for the time compelled the suspension of the roll call. Further delay was

caused by a demand for a poll from the New York delegation. The convention adjourned at 3:50 o'clock this morning until 1 p. m. to day, after having been in session continuously for more than eight hours.

As the delegates and spectators left the hall, the roars of enthusiasm continued to reverberate throughout the building, while crowds outside took up the shout and bore it along the dark and silent streets, awakening the city just as the first rays of dawn were breaking in the East, with the resounding chorus of "Bryan! Bryan! Bryan!"

The Nomination Speech.

The enthusiasm started when Ignatius J. Dunn, a young orator of Nebraska, placed the Commoner in nomination. He is an orator of great ability with a far-reaching voice and discussed those issues so dear to Bryan and the delegates.

ROMANCE OF THE SEA.

Mock Marriage Will Now Become a Real One.

New York, July 10.—One of the romances of the sea came to light with the arrival here of the President Lincoln, of the Hamburg-American line, when the announcement was made that there will be a marriage between Miss Elsie Steinbruck and John Holzeeg, both passengers on the steamship. Miss Steinbruck is a native of West Prussia, while her fiance owns and cultivates a farm near Edwardsburg, Ill. The young woman went to Pasciac, N. J., to stay with friends until the marriage.

On Monday there was a carnival on the President Lincoln, one of the features being a mock marriage between Miss Steinbruck and Mr. Holzeeg. He became very attentive to his mock wife, with the result that their real marriage was arranged. Miss Steinbruck learned to speak English in Germany.

Famine Feared by Russia.

St. Petersburg, July 10.—The likelihood of another famine in Russia during the coming winter was admitted by a representative of the ministry of the interior in the duma in answer to an interpolation regarding the present condition of Russian crops. Two-thirds of the winter wheat is a failure in eighteen provinces, the southern district being the worst off. Two and one-half million acres of land have not been seeded.

Warm weather in June and an abundance of rain in the center and south have somewhat improved the prospect of the spring wheat crop, but nevertheless, relief measures on a large scale will be necessary both for seedling and feeding purposes.

Insurgents Lose Heavily.

Tokio, July 10.—Advices from Seul state that the government troops continue their activity against the insurgents and many engagements are reported throughout the disturbed area. Within a range of eight miles the daily losses of the insurgents average ten killed in each fight. Altogether 4,992 insurgents have surrendered up to the present time. Telegraph and telephone communications, interrupted during the disturbances, have been almost completely restored.

ague at Port of Spain.

Port of Spain, July 10.—The five cases of plague now under treatment at the isolation hospital are convalescent. Since June 28 only one new case has appeared here. There have been no deaths from the disease recently and no suspects are under observation.

House Collapsed—Ten Killed.

St. Petersburg, July 10.—The roof of a house being constructed near the duma buildings collapsed and crashed down through the partly finished floors. Two workmen were killed outright and forty others injured.

FIRE AT CONEY ISLAND

Two Large Hotels at the Resort Were Destroyed.

LOSS IS A QUARTER MILLION

For a Time the Flames Threatened Destruction of Luna Park and Dreamland—Flying Trip Made by Fire Chief in Auto.

New York, July 10.—Fire which caused a loss of a quarter of a million dollars at Coney Island early on Thursday destroyed two large hotels and for a time threatened the destruction of Luna Park, Dreamland and Steeplechase Park.

Fire Chief Lally, of Brooklyn, made a flying trip from his headquarters in an automobile, covering nearly ten miles in twelve minutes. He arrived as the flames leaped over to the tower of the Culver Line station of the Brooklyn Rapid Transit system, and ordered into service the new high pressure system using salt water mains. The system worked perfectly and greatly aided in checking the flames that were fanned by a strong east wind.

Water was thrown on nearby buildings and Dreamland and Luna Park were deluged to prevent further spread of the flames. The fire was under control in two hours and a big force of police were guarding the ruins from looters.

Twenty-five thousand people watched the fire.

The fire started in Pabst's Loop hotel, which was totally destroyed. Mrs. Frank Clayton, wife of the proprietor, left diamonds valued at several thousand dollars in her apartments as she rushed from the burning building, and men were later employed to search the ruins for the lost gems.

There were about one hundred guests in the Pabst, all of whom escaped.

According to the manager of Pabst's Loop hotel, the loss on the structure is \$200,000, and Vanderveer's loss is fixed at \$50,000. The damage on the Culver station was not heavy.

IMPORTANT RULING.

Decision Affecting Prohibition Law—A Public Place Defined.

Atlanta, July 10.—Probably the most important judicial interpretation yet placed upon the state prohibition law enacted last year was contained in the decision handed down by the court of appeals in the case of *Teek* versus the state.

The decision states what is a "public place" within the purview of the prohibition law. It declares that a man's house, his club, private office, or room in a hotel, while not prima facie a public place, may become so. A man may extend the courtesy of a drink to a friend in any of these places, but if any such place shall be open indiscriminately to the public, it becomes a public place.

Liquor or beer may be served at a dinner or barbecue, if it is an entertainment given on a special occasion to a select list of guests, but if any such entertainment becomes a permanent institution, it violates the prohibition law.

HITCHCOCK CHAIRMAN.

Cincinnati: Will Be the Republican Headquarters.

Hot Springs, Va., July 10.—Frank H. Hitchcock, of Massachusetts, the chairman of the republican national committee and manager of the national campaign; George R. Sheldon, of New York, treasurer of the national committee; and Arthur I. Vorys, of Ohio, a member of the national committee of the republican headquarters which are to be in Cincinnati.

This was the result of the meeting of the executive committee of the republican national committee here. All of the eight members of the executive committee were present, and their report was unanimous. The entire action of the recommendations of William H. Taft, the nominee of the republican party for the president, who presided at the meeting.

With the division of strength in the convention between the Bryan and anti-Bryan people the subject of so much speculation, discussion of vice presidential candidates continues in the background and there has apparently been no change in that matter during the past twenty-four hours.

BRYAN WAS PLEASED.

Nebraskan Deeply Touched by Convention Demonstration.

Fairview, Minn., July 10.—

Rockefeller quietly celebrated his 69th birthday at Forest Hill, his suburban home, Wednesday. Mr. Rockefeller, to the friends who called to congratulate him, declared that he was enjoying splendid health and that he never felt better in his life.

FROM AN ADMIRER.

The Way One of Gainesville's Old Citizens Writes of The Sun.

The following letter is one of many that we are continually receiving complimenting our city as well as ourselves, and it makes one feel good to know that all true Gainesvilleans cannot help but think of their former home. The letter follows:

"Pt. White, July 9, 1908.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." MERCY SHOWN WATER CONSUMERS

no Have Not Paid Are to be Cut Off Monday.

IS THE LAW IN CASE

Delinquents Are More Numerous than Ever Before, and Collector and Superintendent Are Simply Following the Ordinance.

Superintendent Miller and Collector Ellis are hot after the delinquent water consumers, from the order which they are giving out.

Collector Ellis says that he positively will not accept payment for after today without the additional \$1, which the consumers will pay if the water is shut off, and Superintendent Miller proposes to them off.

The superintendent cannot cover every section of the city at the same time, he will have assistants, and promises to start them in all directions as possible.

Collector Ellis says that up to three weeks ago the consumers were very prompt in the matter of paying up their rent, but that now they are far behind in the matter and it has become necessary for them to enforce law in this respect, and the Superintendent says he will let no delinquent escape him.

There are still a very large number who are far behind in the matter, it is up to them to pay up or be relieved of the beautiful flow of water.

A Valuable Stallion.

Among the visitors to Gainesville day was J. B. Kennard of Waldo. Mr. Kennard is the owner of a very valuable and handsome stallion, "Oro," which he purchased nearly a year ago from the Carnegie Farms at Dungeness, on Cumberland land, and which was brought here for the purpose of having it properly破. This stallion is one of the most valuable in this section of the country, coming from "Annie Stevens," 18, sired by "Oro Wilkes," 21 1/2, the Mont Kescoe farms in New York. It is an animal of most handsome appearance, and is greatly admired by all who have seen it. "Oro Wilkes" is now at the stables of Crawford & Davis, but will be driven to Waldo this afternoon.

HOUSE PARTY NOTES.

Fun Prevails at the Haile Homestead—A Jolly Crowd.

The "Night Hawks" has been selected as an appropriate name for the jolly crowd.

Tuesday night was spent in renewing old acquaintances and dancing.

Wednesday night the "Homestead" was the scene of a most brilliant mock wedding, the contracting parties being Mr. Essie Bessent and Miss Earle Bouis, both of Jacksonville. The bridal party entered the drawing-room to the strains of "No Wedding Bells for Me." The groomsmen were Messrs. Whetstone and Futch, while Misses Bartleson and Haughton preceded the maid of honor, Miss Bill Anderson, as bridesmaids. The ring bearer was little Master Annie Cannon. The ceremony was performed by the "Rev." Arthur Albertson, during which Miss Alma Fennell played "Cause I'm Married Now" very softly. The flower girl, little Master Girardeau, scattered cotton blossoms in the pathway of the bride.

The groom was attended by Mr. Ernestine Fagan as best man.

The bride was beautifully attired in a most becoming Parisian creation of white cheese cloth over green taffeta, and carried a shower bouquet of sunflowers and maiden-hair ferns.

After this most impressive ceremony a wedding luncheon of watermelons and coca-cola was served. The happy couple left for Arredondo for an outing.

Only the immediate family, consisting of Mr. and Mrs. Walker and their twenty-eight children were present.

The young ladies, attired in most becoming Japanese costumes, were "at home" to their friends Thursday night.

Friday night the "Night Hawks" entertained a number of Gainesville friends with a watermelon cutting.

Thursday night the jolly crowd indulged in a barn dance. This seems to be the favorite pastime of the inhabitants of the "Night Hawks" Inn.

Our most important room is the kitchen, and is presided over by Mrs. Millie Dooly and Ella Washington.

Saturday night we will hold an important "call term" of Kanapaha court, when Miss Bell Sadler will sue Mr. Charlie Bartleson for breach of promise.

Messrs. Haughton and Albertson will defend the plaintiff, while Misses Bessent and Fagan will plead for the defendant. The judge's chair will be occupied by Col. Pearl Whetstone.

Mr. and Mrs. H. H. McCreary, Mrs. Geo. S. Merchant and little son, Harry, spent the day with us Friday.

Mr. and Mrs. Evans Haile will join the party tonight.

We have been visited by Messrs. Klein Graham, Glenn Stringfellow, J. W. Shands and Will Anderson, and Mr. Bennett, and Misses Mamie Wilcox and Ethel Jolly of Waldo.

FIRE PROTECTION FOR WEST LIBERTY STREET

City Council Order Pipe and Hydrants Thursday Night.

FOUR AND SIX-INCH ORDERED

They Propose to Give the People of The Fast-Growing Sections Every Convenience for Which They Are Paying, Which Will Be Appreciated.

The City Council at an adjourned meeting on Thursday night made provision for some of the districts in the city that have as yet no fire protection.

An order was placed for forty tons of six-inch pipe, thirty tons of four-inch pipe and ten hydrants.

A portion of this material will be used on West Liberty street, giving the people of that section known as College Park, and all along West Liberty street, the advantage of the fire protection that they have so long needed.

In addition to the above the people of North Prairie avenue will also be favored with hydrants placed on important corners of that thoroughfare.

The council is to be commended for their liberality in ordering this new material, as in giving these people protection they are doing what has not only been needed but what will greatly enhance the value of their property.

THE BUDINGERS AT HOME.

Reached Snow Shoe, Pa., After a Delightful Sea Voyage.

T. B. Budinger and interesting little son, Robert, who spent the past few months here, and who sailed on the Clyde Line steamer "Apache" in early June, have reached their home in Snow Shoe, Pa., after a delightful sea trip to New York.

Mr. Budinger writes friends in this city to the effect that he took his automobile North on the steamer, but while the machine was being repaired he received information that his father was quite ill, and proceeded to Snow Shoe.

"We had a very pleasant trip on the steamer," he said, "as we had quite a little party from Gainesville aboard, consisting of Mr. and Mrs. S. M. Davis and children, Mrs. Medlin, son and daughter, Mrs. Ella LaF. Hamilton, Mrs. Baron, Miss Ballis, Mrs. Colclough, Robert and myself."

Friends will be glad to welcome Mr. Budinger and his family again next winter. He is extensively interested in the milling business near the city, being associated with the Bock Lumber Company, and has recently purchased a nice home here—the Walter G. Robinson place on South Pleasant street.

"That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

In passing, it might be mentioned that among those present at the Denver convention are a good many Democrats who have been defeated just as often as Mr. Bryan has.—Miami News-Record.

The Tampa Evening News says: "There's a woman candidate out in Florida. The Socialist State Convention nominated Mrs. S. F. J. Finn of Eustis for State Superintendent of Public Instruction. Mrs. Finn is doubtless an estimable and capable woman, but she is in bad company, and her political Finn-ism will not be a successful one."

A Jersey hen (wonderful to relate) the other day laid a double egg—one complete egg inside of another. There are places that can go Jersey one better, as when a corporate hen, by joint parentage of legal and financial jugglery in the form of a holding company, not only lays an egg within an egg, but lays the inside one a bad egg at that, the yellow of which is inky and the white thereof is transparent gall.

It is with sincere sorrow that we learn of the misfortune of Editor L. B. Hillson in losing his home, furniture, jewelry, wardrobes, heirlooms and library consisting of some two thousand volumes of choice books, many in foreign languages—the accumulation of his life-time. The origin of the fire is unknown. The inmates had barely time to escape with their lives, as the fire was discovered about midnight.

The paper trust has just reported to the New York Stock Exchange that its gross profits for the past ten months were \$17,187,000. For which good showing the trust must be thankful to the Republican party, which has protected it from competition through high tariff rates. When the trust makes its contribution to the Republican campaign fund every Democratic newspaper proprietor, at least, will unwillingly be the indirect donor of part of the boodle to elect Taft and Sherman and another Republican Congress, which would, if necessary, perhaps revise the tariff higher, instead of abolishing the tariff on wood pulp and print paper.

TAFT'S MANAGING MAN.

There hasn't been much doubt at any time, says The Savannah News, that Frank H. Hitchcock would be selected to manage Mr. Taft's campaign. He managed the Washington end of his campaign for the nomination. He had headquarters in Washington and rounded up the office-holders in the South and got them to send Taft delegates to Chicago.

It isn't known to the world at large that he has qualifications for managing a great political campaign. Secretary Cortelyou thinks he has. Mr. Cortelyou discovered him, and has faith in him. Mr. Cortelyou himself hadn't a great deal of experience as a political manager when he was chosen to manage Mr. Roosevelt's campaign.

Mr. Hitchcock is about forty-two years of age and is said to be able to make friends rapidly. He is a graduate of Harvard University and has been an office-holder ever since his graduation. He didn't study for a profession when he left the university, but went to Washington, where he was made the chief of a bureau. Evidently he had influence with the powers there. Otherwise he wouldn't have captured so fine a prize so early in his political career. The place required that he should travel over the country. In that way he became acquainted with leading politicians and office-holders. Then Mr. Cortelyou had him appointed to the place of First Assistant Postmaster-General. They became great friends and Mr. Cortelyou missed no opportunity to sing his praises.

It seems that Mr. Hitchcock had some experience in practical politics when he was at Harvard. The young men were leaving the Republican party in Massachusetts because it was too conservative. It didn't attract them, and they were deserting to the Democratic party. The Republican leaders determined to make a fight to retain them, and Mr. Hitchcock was one of the men chosen to work among them and to inspire them with new faith in the Republican party. He seems to have prospered in his work. Probably it was at that time that he got the experience which Mr. Taft thinks fits him for manager of a Presidential campaign.

It is true in those early days he had to collect campaign funds and distribute them. That is a big part of the work he will have to do in looking out for Mr. Taft's interests in the Presidential contest. If, however, Mr. Bryan selects a shrewd old politician, one who has fought political battles in a score of campaigns, Mr. Hitchcock will have many sleepless nights before the ballots are counted next November.

MARKETING LUMBER BY JAPAN.

Japan is the only government in the world which takes upon itself the working of its lumber business, according to Consul-General Henry B. Miller of Yokohama, in a report in which he quotes the director of the Japanese Forest Bureau.

The Mikado's government has set apart a quarter of a million dollars to build sawmills and lumber roads, manufacture lumber in remote districts, and put it on the market. Except railroad ties for Manchuria roads, the Japanese government exports no timber. It is all needed at home.

Many governments in different parts of the world own forests, but, as a rule, the timber is sold where it stands, and the buyer cuts and markets it. That is the way it is done in the National forests of this country. The Japanese government, however, proposes to carry on all parts of the work, from planting the trees to selling the lumber after it has been manufactured.

A MUZZLED DOG.

The other morning a big, shaggy-haired dog came mournfully trotting down Main street with a muzzle on his nose and an unmistakable look of mortification and chagrin upon his intelligent countenance, and when opposite Davenport block he encountered a frisky little Spitz dog whose exuberant spirits were as yet unsubdued, and whose face was still undarned by a wire muzzle. The big fellow stopped for a moment, and the little fellow gazed with perfect astonishment upon the facial decoration of his large acquaintance. Then with a few disapproving barks he began a cautious investigation of this "dog-gone" instrument of torture, and after apparently satisfying himself that it was an unwarrantable interference with the sacred rights and privileges of any well-behaved canine, he took measures for the instant removal of this objectionable appendage. Standing upon his hind legs he put his fore paws between the wires of the muzzle and tugged away with all his might. But alas, to no purpose; and after several ineffectual attempts he relinquished the task and slunk out of sight, with the mingled feelings of pity and disgust depicted on his face, with his pleasure for the morning spoiled; while the poor old fellow with the muzzle moved slowly on his way, gulping down a big sob and checking a rising tear as he thought of the base injustice of man.—North Adams Transcript.

It is reported that provision will be made at Tallahassee for the payment of the \$15,000 appropriation for State Fair premiums, thus far held up because of lack of funds in the State treasury. This is a matter of interest to all those who won premiums at the last fair.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century: discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are of Swamp-Root sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Wednesday morning at Kathleen, near Island, Clarence Strickland, aged 12 years, was accidentally shot and killed by his boy friend, Robert Terry, of that place. Young Terry had a gun in his hand, which he was snapping at several children, not aware of the fact that it was loaded. It failed to go off at first; however, it did, with the above result. The excitement soon prevailed, the unfortunate affair coming as a great shock to the people of that section. The young man was extremely popular with all with whom he came in contact, and his untimely end is mourned by no one more than the friends who took his life, the boys having been bosom friends.

Several months ago, when the water in the "saw grass" (a marsh formed by the back water from the electric light dam on the Hillsboro river), quite deep, Roy Bean was wading and over the marsh shooting ducks. He had about \$40 in his pocket, mostly paper money, and as he did not care to get it wet put the pocketbook in his hat. His hat was blown off by the wind and before he could rescue his pocketbook his money was out of sight. He was about 100 feet deep in mud and water. Owing to the recent drought the "saw grass" was about dry. A few days ago the pocketbook was found, the money being very little the worse for its long submergence.—*Seffner correspondent* *Tampa Tribune*.

Mrs. Robert Y. H. Thomas, accompanied by her two interesting children, Miss Esther and Master Robert, Jr., with maid, left Wednesday for the Adirondacks. Dr. Thomas will join his family later in the season.—Jacksonville Metropolis.

Senator H. H. McCreary and wife and Mrs. Geo. S. Merchant and son, Harry, spent yesterday as guests of the house party at the Halle Homestead, Kanapaha. Never was a jollier party assembled, and everyone who visits the place joins in the hilarity of the occasion.

Mrs. J. T. Townsend and children of Melrose, who have been in the city for several days on a visit to the family of T. L. Boulware, returned to their home yesterday morning. They were accompanied on their return home by Miss Mattie Boulware, who will spend some time at that place.

Mr. Charles A. Colclough and his daughter, Miss Lucille Colclough, of Gainesville, are prominent and popular visitors to the city today. Mr. Colclough has several business interests in Jacksonville, and the many friends of the family hope these interests may lead to a permanent home here.—Jacksonville Metropolis.

Miss Eloise Douglass left yesterday for Jacksonville, where she will be the guest of Mrs. C. C. Hudson for a few days. An amusing incident connected with her departure, however, was that after packing her trunk her cat crawled in and was locked up, the incident not being discovered until the trunk had arrived at the depot, when it was returned to the house to find his catship ready to alight from its imprisonment.

Chas. Johnston, for many years a resident of this place and well and favorably known throughout the county, is in the city from his home on the East Coast. For many years past Mr. Johnston has been engaged in the livery business at Daytona, but recently had the misfortune to lose his stable and most of the contents by fire, which proved a serious loss to him. It is understood that he is now looking for a location to again engage in the same line of business.

DANCE AT WORTHINGTON.

Many Gainesville People Now Sojourning at This Popular Resort.

Worthington Springs, July 10.—The dance given Friday night by Mr. and Mrs. I. F. Lamb at Hotel Worthington was a decided success, largely attended by the popular young people of nearby towns. Everyone seemed to have enjoyed the occasion very much.

Fifteen hundred people was the estimated number of visitors at Worthington Springs July the 4th. No drinking nor rowdyism occurred to mar the pleasures of the people, which speaks well for this community.

Among the popular young people from Gainesville who attended the dance were Misses Lena and Mary Baird, Mrs. R. D. Medlin, Miss Mary and Oscar Medlin, Miss L. H. Jackson, and T. W. Fielding.

S. A. Pardue of Chattanooga, Tenn., formerly of Gainesville, Fla., is at the springs for a ten days' outing.

Miss Mary Baird, who has been a guest of Miss Mabel Lamb for a few days, returned to Gainesville today.

F. C. Crown, Jr., a successful truck planter of Rocky Point, left today for his home much improved from a few days' stay at the springs.

Miss Gertrude A. Westgaard, a popular young lady of Buena Vista, Fla., was an admired guest at the dance Friday night.

C. B. Hodges and brother of High Springs were guests of Hotel Worthington Saturday and Sunday.

N. R. Peacock of Lake Butler attended the dance here Friday night.

Guy C. Trammell, a prominent merchant of Wilcox, visited the springs on the Fourth.

E. M. Ashley of Valdosta, Ga., accompanied by Mr. C. A. Wells of Alachua, enjoyed the excellent bathing here Saturday.

Prof. T. J. Poppell of LaCrosse is visiting his brother here.

Miss Kirkwood, an attractive young lady of Archer, attended the dance Friday night.

GEORGIA LEGISLATURE.

Extension of State Road to Sea Causes Much Discussion.

Atlanta, July 10.—Work on extending the state road to the sea, as suggested by Mr. Alexander, of DeKalb, has proceeded very slowly.

Two days have been consumed now, and the need is not yet in sight.

Whether the extension will be carried to a successful end is a matter of grave doubt in the house, and the senate has not begun to think on the subject.

Many amendments to have the road pass through this and that place on its extension to the sea have been sent in to the clerk's desk. These would carry the road on a regular loop-the-loop tour of the state.

Mr. Alexander, of DeKalb, who spoke for two hours and three-quarters on this subject Tuesday, got the floor the first thing Wednesday, and what he did not say about building this road to the sea on Tuesday he certainly said on Wednesday.

Mr. Alexander concluded his speech with a plea for the house to vote down each amendment, stating he had no objection to either, but that he did not want the bill killed by amendments as to which direction the road should go or where it should terminate before the bill was passed. He was roundly applauded as he concluded.

Fulton county will compose the thirty-fifth senatorial district if the bill by Mr. Huie, of Clayton, proposing to redistrict the state, allowing fifty-nine districts, favorably reported by the committee on constitutional amendments, becomes a law. In addition to placing Fulton county as a senatorial district, and by that allowed a state senator at each election, instead of alternating with Cobb and Clayton, as is now the case, the "city counties" of Oatham, Bibb, Floyd and Richmond will each be allowed a senator, and will constitute a senatorial district. The remainder of the state will be divided into two and three-county districts.

in the Senate.

By a vote of 36 to 6, the senate on Wednesday morning passed the house bill appropriating \$15,000 to the Georgia Normal and Industrial college at Milledgeville.

The Born-Overstreet bill, giving the railroad commission increased powers so as to authorize them to pass on all measures involving the right of eminent domain, was defeated by a vote of 29 to 6 without any argument having been made on either side of the question.

A new bill of considerable interest was that introduced by Senator Henderson, of the thirty-ninth, to authorize the governor, with the advice of the senate, to appoint the superior court judges and solicitors instead of their being elected by the people. It is claimed that ever since the original law was changed there has been general dissatisfaction and that there is a strong sentiment among the people to revert back to the old plan or the plan as outlined in the bill by Senator Henderson. The public generally will watch with interest the outcome of this bill.

The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on *Materia Medica* who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

BOSTON HAS BIG FIRE.

\$1,500,000 Worth of Property Destroyed—One Man Missing.

Boston, July 10.—A fire, believed to have been caused by spontaneous combustion or a locomotive spark, and fanned by a brisk northwest wind, swept nearly a quarter of a mile of the harbor front of east Boston causing a property loss estimated at nearly a million and a half dollars. Much of the loss falls upon the Boston and Albany railroad.

Daniel Sullivan, a watchman at the Cunard line pier, is missing.

Wednesday's fire was the biggest and most destructive that has broken out along the harbor front for many years. The flames spread with remarkable rapidity, and by the time the first fire-fighting apparatus arrived on the scene, they were beyond control and leaping from pier to pier.

Within an hour of the time the fire was discovered, four piers, three warehouses, a grain elevator, containing 30,000 bushels of grain and many loaded freight cars had been destroyed.

Several vessels and lighters narrowly escaped destruction.

The burned area includes piers 1 and 2 of the Grand Junction docks and the pier on which stood the big grain elevator, all owned by the Boston and Albany railroad, and used by the vessels of the Cunard line; and Pier No. 6, owned by the Leyland line. This property extends along the water front to the wharf of the Massachusetts Coal Wharf company, which adjoins the east Boston ferry slip of the Boston, Revere Beach and Lynn railroad, commonly known as the "Narrow Gauge." The piers destroyed were each about 800 feet long, and from 200 to 300 feet wide. Piers Nos. 1 and 6 were each covered by a large warehouse. Between piers 1 and 2 was the pier upon which the elevator stood.

The fire started in the warehouse of Pier No. 1, Grand Junction docks. In this building was stored an immense quantity of combustible material, including wool, Egyptian cotton, grease and oil. It is believed that spontaneous combustion or a spark from a freight locomotive alongside the warehouse caused the fire.

The Boston and Albany railroad, New York Central and Hudson River railroad, lessee, are the greatest losers. It is estimated that the railroads' loss is, \$1,000,000, covered by blanket insurance. The loss of freight and grain burned is placed at fully \$100,000. Practically all of the freight was insured.

JULIAN HARRIS CHOSEN.

Succeeds "Uncle Remus" as Editor of Home Magazine.

Atlanta, July 10—Julian Harris, son of Joel Chandler Harris, succeeds his father as editor of Uncle Remus's—The Home Magazine, retaining also his original position as general manager.

Don R. Marquis, who has already made national reputation through his editorials, poems and short stories published in the magazine, is to continue as associate editor.

The directors of the Uncle Remus's—The Home Magazine, reached these two conclusions, when they met to discuss the death of Joel Chandler Harris and to take measures looking to the future management of the periodical of which he was the founder. In the statement in which these decisions are made public, the directors of the Magazine take occasion to pay a sincere tribute to the peculiar fitness of Julian Harris to assume the duties from which death called his father.

MANY MINES STILL CLOSED.

Situation Between Alabama Coal Operators and Miners.

Birmingham, Ala., July 10.—Following the statement from furnace and commercial coal operators that there will be no giving in and that the mines will be operated on the open shop plan, the union miners give out the announcement that all efforts to organize the then nonunion mines will be doubled and great additions to the ranks are assured. Several mines are still closed down.

A number of deputies are working day and night at some of the mines and trespass warnings are being put up. The operators in their public statement say that all protection necessary will be given to those men who want to continue at work. Efforts will be made by commercial operators to start their mines on open shop plan.

SPECIAL ELECTION CALLED.

Successor To Be Named to Late Congressman Wiley.

Mobile, Ala., July 10.—A Montgomery special says:

Governor Comer has issued a proclamation calling a special election on the day of the general election—the first Tuesday in November—to choose a successor to the late A. A. Wiley in the second congressional district.

Immediately upon receipt of the proclamation W. A. Henderson of the democratic district committee called his committee to meet in Montgomery, July 14, to provide a method of selecting the nominee. A fight may be made for the convention plan.

CASH TURNED LOOSE.

Dividend Money Is Now Greasing the Wheels of Commerce.

Columbus, Ga., July 9.—The Georgia and Alabama Industrial Index says in its regular weekly issue:

Dividend money is now greasing the wheels of commerce in Georgia and Alabama, and a right welcome lubricant it is. Numerous banking, industrial and railroad corporations in the two states declared annual, semi-annual or quarterly dividends during the first week in July, and a great sum of money was thus placed in the channels of trade, benefiting countless thousands of people. In the city of Macon, Ga., the money paid out in dividends is estimated to have been \$100,000.

In Augusta, Ga., the interest paid saving bank depositors aggregated \$60,000, and this was but one item. In other large cities in the two states big sums of money were turned loose by the corporations in the shape of dividends to stockholders, who for the time being found themselves in the same role as employees, in that they were on the pay roll.

ATTEMPTED DYNAMITING.

Negro Was Bound Over—Threatened to Blow Up Family.

Mobile, Ala., July 10.—Albert Robinson, the dynamiter, or, at least, would-be dynamiter, was bound over to the city court by Recorder Clarke on the charge of assault to murder, and it was due to the promptness of the police that he did not send a half dozen people to death. The negro was unable to make bond and was sent to the county jail to remain until the October term.

It is the first case of attempted dynamiting since the civil war, and the court expressed itself that it believed that Robinson would have carried his threat into execution when he told E. G. Hill that he was going to blow him and his family to pieces.

The dynamite was exhibited in court as part of the evidence, and, according to experts, there was enough of the deadly explosive canned in the stick to kill twenty people.

Revolt Is Insignificant.

Hamburg, July 10.—The consul-general here of the republic of Salvador, has received the following cablegram from President Figueroa: "The revolutionary outbreak in Honduras is very insignificant and will be easily suppressed by the government of that state. Salvador is carrying out the obligations undertaken with the other states of Central America and is keeping a watch on her frontiers and capturing all fleeing revolutionists.

Fire Causes Loss of \$200,000.

New York, July 10.—A loss estimated at nearly \$200,000 was suffered by College Point, L. I., by a fire which destroyed Zehden's hotel and casino, Donder's casino and a number of small adjoining buildings. The Bethlehem Orpheum asylum, sheltering over 500 children, was menaced for a time and there was a panic among the inmates.

The "Calliope King" Dead.

Nashville, Tenn., July 10—William W., better known as "Bud" Horn, the calliope king, is dead at his home in this city, aged fifty-seven. Horn was well known by the show people all throughout the United States, having for years traveled with various circuses as calliope player.

POSTAGE STAMPS.

and Carelessness That Enrich Uncle Sam.

we waste other things the way stamps," said a stamp clerk the day, "we Americans are just the most wasteful people on the earth."

Uncle Sam is much more than half a million dollars in pocket every year result of carelessness in the use of stamps. The government never loses by such carelessness and always gains.

How many stamps do you put loose in the drawer of your desk or in a corner of your pocketbook and never think of until you come across them, aged and torn, while rummaging about later? Then they are tossed into the wastebasket.

Lots of people are careless about putting stamps on envelopes and paper. The result is that often the stamp has been canceled before the letter is held up at the other end of the line until postage is paid.

great many more folks put on too much postage. They slap on two or three stamps to a package that needs only one. They are too busy or indolent to take the trouble to weigh the package and find how much postage the package needs.

too little postage is put on a letter. Uncle Sam simply holds it up at other end until the postage due has been paid. But if too much is put on, Uncle Sam simply pockets the extra to which he is not entitled and nothing."—Chicago Tribune.

WATCH THE CELLAR.

at Clean It is a Breeding Place For Sickness.

Underground cellars ought to be done away with. They are relicts of a dark

More sickness originates in them, physicians claim, than anywhere else at the place. They cannot be kept sanitary condition while vegetables constantly decaying there. The cellar for a cellar is above ground and inside the dwelling. Leave the basement for the furnace, the coal bin and general storeroom. An above ground cellar is more convenient in every way, or vegetables can be stored with less than half the labor when you do have to go up and down stairs with them. You can keep an above ground cellar clean with but little trouble, while the underground one, being difficult to get at, will be neglected nine times out of ten and allowed to become a source of infection to the family.

ventilation and temperature are much more controllable in such a building than in an old fashioned underground cellar, which obliges the housewife to use up so much strength in climbing stairs. Locate it convenient to the kitchen, with which it can be heated in winter by an inclosed passageway. Watch the cellar. Remember, the doctor who immediately recovers, when called to treat a case of child fever, if there was decaying vegetable in the cellar. There was a cellar sweet and clean and that it is frequently aired.—Suburban Life.

A Mountain of Alum. In China, twelve and a half miles from the village of Liouche, there is a mountain of alum which in addition being a natural curiosity is a source of wealth for the inhabitants of the country, who dig from it yearly tons of alum. The mountain is not less than ten miles in circumference at its base and has a height of 1,240 feet. The alum is obtained by quarrying large blocks of stone, which are first heated in great furnaces and then melted into blocks filled with boiling water. The alum crystallizes out and forms a layer about six inches in thickness. This layer is subsequently broken up into blocks weighing about ten pounds each.

Travel as Teacher. "Travel forms the young" is a French proverb. So it does, and it also helps a teacher to become formative. DO YOU WANT TO

MAKE OR LOSE MONEY

THIS SUMMER?

THERE is no good reason for any "summer dullness" in the stores of this city. That's a strong statement—but it's not nearly so strong as the one to follow.

No store in this city ever suffered from summer dullness that was not directly traceable to its advertising policy—that was not INEVITABLE on account of its advertising policy. This is a strong statement—but not so strong as the one to follow.

You—if you who read this are a merchant in this city—HAVE THE ABSOLUTE POWER TO DECIDE WHETHER, during THIS summer, YOUR STORE SHALL LAG AND LOSE GROUND, through ENCOURAGING THE NON-BUYING HABIT IN THE PEOPLE—or shall keep as busy as in the so-called "busy seasons." You decide the matter one way or the other when you decide on how much or how little you will advertise during these summer months.

To really "gain ground" at a time when some stores are lagging and falling back is not only possible—it is an aspiration—worthy of a man who has the habit of accomplishing his purpose.

Uncle Sam

IS INTIMATELY ACQUAINTED WITH US

He writes us five times a year and insists that we answer his letters by giving him a statement of the condition of our Bank on the day called for. He also sends his Bank Examiner down very unexpectedly twice a year to see that all our depositors' money is properly accounted for. This, with the reputation of our officers, should be sufficient guarantee that your money is safe in our hands.
